Wanted: Solar Electrician for Hire

Experienced and rapidly growing Northeastern Pennsylvania solar energy company is seeking an electrician with the following qualifications to join our team. RER Energy Group is based in Reading, PA. Benefits provided with potential for growth. This position allows the proper candidate to work remote.

JOB OVERVIEW

- Journeyman or Master Electrician.
- Ability for daily travel in the Mid-Atlantic area (some possible overnights, however employee would not be expected to spend week(s) out of town).
- Minimum NABCEP Entry Level PV Experience preferred.
- Good Controls and Communications - electrical emphasis (cat 5e, fiber, etc.).
- Company provided service vehicle with equipment.
- Competitive compensation based upon experience.

RESPONSIBILITIES

- Must have a good understanding of the NEC.
- Installing DC and AC electrical runs, including work on roof tops, tall ladders, and tight spaces.
- Mounting inverters and laying out other electrical components in a clean, organized manner.
- Replacing service panels, adding subpanels, and tying systems into the utility grid.
- Interpreting PV line drawings, product literature, and referencing the NEC.
- Communicating with utility companies and inspectors.
- Must have a working knowledge of OSHA standards, company safety programs, and policies relative to the installation of these systems.
- Represent RER Energy Group in the field and being a point of contact for our customers.
- Maintain a professional appearance and attitude at all times.
- Basic abilities to read blueprints/ schematics.
- Scheduling/ Planning skills.
- Must have current driver's license.
