

# Free Solar Energy Seminar

## Case Studies on Financing & Technology Options

### Learn How to Obtain Over 80% of Your Solar Project Costs from Federal & State Incentives, Bonus Depreciation and Other Programs

RER Energy Group, Tomey Electric, Inc. and the Salisbury University Small Business and Technology Development Center are pleased to offer a seminar on best practices for implementing solar electric systems for commercial, industrial and agricultural enterprises. Recently passed legislation in Maryland provides additional financial incentives to organizations making a commitment to solar electric.

**Who Should Attend:** This Seminar will benefit business owners and all personnel responsible for managing electrical energy systems and associated costs. Members of our staff will work with you to answer questions about solar photovoltaic technology, other renewable energy systems and the currently available incentives. RER is a leader in the solar industry with over 20 megawatts developed to date. RER Energy Group offers free grant writing services and has helped clients obtain over \$15 million in federal and state solar grant awards.

The **Financial Session** will focus on available incentives & options:

- 1) Federal & State Grants and Incentives
- 2) Solar Renewable Energy Credits (SRECs)
- 3) Accelerated Deprecation
- 4) No Money Upfront Options

The **Technology Session** will focus on best practices and case studies for:

- 1) Equipment and Installation Options
- 2) Utility Interconnection and Net Metering Considerations
- 3) Case Study Examples
