RER Energy Group

Clinton Electric Co., Inc.
Baltimore's Premier Electrical Contractor Since 1969

MARYLAND

Renewable Energy Free Workshop

Cash Savings through Solar Electric Systems

Case Studies of Solar Electric Systems, Technology Considerations, Maryland Incentives & Financing

RER Energy Group and Clinton Electric are pleased to offer a workshop on best practices for implementing solar electric systems for commercial, industrial and agricultural facilities in regards to technology and funding options. Recently passed legislation in Maryland, emphasizing the states commitment to renewable energy, provides additional financial incentives to companies making a commitment to solar electric.

Who Should Attend: This workshop benefits energy managers, sustainability managers, facilities, and operations managers responsible for investigating and managing electrical energy systems. You will have the opportunity to ask questions about photovoltaic technology and incentives from the experts at RER Energy Group. RER has developed over 50 solar electric systems and is a leader in the solar industry with over 5 megawatts developed to date. Solar offers a good investment, providing IRR's of 15-20% for systems that will last 30–40 years. **Prices for turn-key solar electric systems have fallen 50% in the last 3 years.**

The **Financial Session** will focus on available incentives & options:

1) Federal & State Grants and Incentives
2) Accelerated Deprecation
3) Solar Renewable Energy Credits (SRECs)
4) No Money Upfront Options

The **Technology** will focus on best practices and case studies for:

1) Equipment and Installation Options
2) Utility Interconnection and Net Metering Considerations
3) Case Study Examples

When: Thursday, October 25th, 12:00 PM to 2:00 PM

Where: Clinton Electric
1850 York Road, Suite M
Lutherville-Timonium, MD 21093

Space is Limited. Reserve your seat soon. To submit your registration, either: e-mail bmaholick@rerenergygroup.com, or print this form and fax to 888-712-0734, or register on our website. If you have any questions, call Betsy at 610-577-6887.
